Attendance Registration

The Registration Module

Is divided into two pages

1. Member Registration

- In the member's registration, here we are able to insert a new member into our system.
- The registration asks for the member's name, ID, gender, phone number, membership type, start date, end date, time, type of attendance, date of attendance.

2. Attendance Registration

- In the attendance registration, here we registers a member implying they have appeared before the gym on that logged date
- The registration asks for the member's name, entry type, date & time.
